

REMARKS

The Examiner's Action mailed on April 12, 2007, has been received and its contents carefully considered.

In this Amendment, Applicants have editorially amended the specification and various ones of the claims. Moreover, claim 1 has been amended to include the subject matter of allowable claim 3, and claims 3, 4 and 6 have been canceled. Claim 1 is the independent claim, and claims 1, 2, 5, and 7-10 remain pending in the application. For at least the following reasons, it is submitted that this application is in condition for allowance.

The Examiner has rejected claim 2 as being indefinite. It appears that the basis for this rejection is the use of the term "left" and "right", when defining the partition member. In response, claim 2 has been amended to eliminate the recitation of the left and right partition members. It is believed that claim 2 now complies with all official provisions, and it is requested that this rejection be withdrawn.

It is noted with great appreciation that the Examiner considers the subject matter of dependent claim 3 as being allowable over the art of record. In response, claim 1 has been amended to include the subject matter of allowable claim 3, thus placing this claim in *prima facie* condition for allowance, and rendering all of the Examiner's prior art rejections moot.

It is thus submitted that this application is now in condition for allowance. Such action, and the passing of this case to issue are requested.
